## Library's expansion

For School Year 2009-2010, the library have undergone a "make-over" in terms of arrangement and relocation of its collection. The space formerly occupied by the Graduate School was given to the library. The library has now a bigger place to accommodate the growing number of books and

allocated a wider space for reading areas. The library also made provision for a Discussion Room, which is made available to students who need a place to discuss with their group their report or lessons. A stack area for 1989 and below books which are still very much useful is also provided.
